WHAT TO PACK

Packing List for a South African Safari

LIGHT, NEUTRAL COLOURED CLOTHING

In general, it is a good idea to pack comfortable, casual clothing that you can wash and wear easily. Go with clothes that are lightweight and airy as it can become incredibly hot when the sun is beating down.

Neutral colours such as khaki, green, beige, light browns, neutral checks and even light to medium blues are best for game viewing.

To avoid looking like a safari novice, steer clear of bright red, yellow, purple and white (white also gets dirty quickly which can happen easily in the bush).

Pack smart & bring layers

A lightweight, waterproof jacket

Sunscreen, sunglasses, hat & lip balm

Comfortable walking shoes

Binoculars

Camera, lenses, batteries & memory cards

A personal medical kit

Something slightly fancy for dinners

All of your important documents
